The Snow Walker Feb 26 2021

One morning in March 1888, twelve-year-old Milton Daub awoke to find the world buried in snow. The blizzard was like nothing Milton and his neighbors in the Bronx had ever seen. No one dared go out into the storm. No one, that is, except Milton. He and his father made a pair of snowshoes from barrel hoops and old roller skates. Then

Milton stepped bravely into the storm to buy milk for his family. Soon he was buying supplies for everyone in the area. His neighbors declared him a hero. The Blizzard of 1888 set records in the Northeast that are still unbroken. It forced whole cities to shut down for days. But Milton didn't let the snow stop him from helping neighbors in need. His true story is both an exciting adventure and a heartwarming glimpse of old

Losing Earth Oct 13 2019 By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing

binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the

story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

Madam Foreman Nov 13 2019 For better or worse The People vs. O.J. Simpson served as a mirror of modern America. It was all there - wealth, fame, celebrity, sex, race, adultery, drugs, domestic abuse, and murder - acted out by a cast that cut across all segments of

society in a drama that polarized the nation. And to witness it, all anyone had to do was turn on the television. As winter turned to spring and spring to summer, opinions formed and then hardened. Research polls reported deep divisions along racial lines and the opinion pages filled with commentary that tried to explain how so many could look at the same evidence and reach such starkly different conclusions. But what people saw in the trial of the century simply reflected their own backgrounds and beliefs. In the end, that was the most revealing verdict of all. Capturing the experiences of the jurors who decided this

trial was not an easy feat. Throughout this book the insight and opinions of the primary narrators, Juror #230, foreperson Armanda Cooley; Juror # 98, Carrie Bess; and Juror #984, Marsha Rubin-Jackson, are expressed in their own words. Only they can, and do, reveal the view from the jury box." Phoenix Books is pleased to offer Madam Foreman in newly created ebook format which has been digitally enhanced to include a fully linked table of contents to ensure an enjoyable reading experience on all portable devices.

Kidd the Pirate Jul 14 2022
Touching upon the legends surrounding the infamous

captain William Kid, Washington Irving's short story deals in feats of adventures, pirates, and buried treasure. The tempestuous life of William Kid and his return "laden with booty" gives vent to the rise of treasure-seekers, chasing wild rumours. Superstition, devilry, and magic intertwine in this short story that forms the backbone of American folklore tales about pirates and hidden, stolen goods. But do not hasten to grab the shovel - the aforesaid treasure is often guarded by the Devil himself. Versatile as the subject matter of his literary oeuvre, the name of Washington Irving still echoes in the corridors of the American literary canon.

Having earned special status as a man of letters in America and Europe alike, Irving's fame stems primarily from his short stories "Rip Van Winkle" and "The Legend of Sleepy Hollow". An avid biographer and historian, his influence can be felt within a vast group of American and British authors such as Nathaniel Hawthorne, E. A. Poe, Charles Dickens, and Sir Walter Scott.

[A Knickerbocker's History of New York](#) Oct 25 2020 Told from the perspective of a cantankerous man named Deidrick Knickerbocker, *A Knickerbocker's History of*

New York depicts a satirical history spanning from the world's creation to the end of the Dutch dynasty. Beginning with the start of time itself, Knickerbocker reveals historical anecdotes, both real and imagined featuring social commentary, fresh perspectives on the past, and conversations with powerful historical figures. With humor and intrigue, *A Knickerbocker's History of New York* tells the tale of the discovery of New York, and explores the first Dutch settlements. While examining those origins, Knickerbocker muses about the ethics of colonization and the immoral treatment of Native Americans, with biting and

brutal honesty. Still under the Dutch "rule", 1600 New York acted as one of the breeding grounds for many American Christmas traditions, some of which are still alive today. Under a comical microscope, *A Knickerbocker's History of New York* explores the effect the early Dutch settlements have on American culture, particularly in New York. Originally published in 1809, Washington Irving's *A Knickerbocker's History of New York* earned acclaim for its innovative genre as one of the first American comedic works. With the mix of specific, inside jokes and universal humor, Irving's satire invites laughter from both his original

audience and contemporary readers. With prose and wit that has remained fresh and hilarious even two-hundred and eleven years later, Washington Irving's *A Knickerbocker's History of New York* contains a narrative that has earned centuries of influence. While playfully mocking both classic literature and historians, Irving was bold enough to even include a list of people, professions and properties that he intended to make fun of. Though Irving mixes fact with fiction, *A Knickerbocker's History of New York* provides useful insight on the history of Dutch Americans, as well as contributing thoughtful social commentary that finds itself

still applicable to modern society. Now featuring a stunning new cover design and a modern font, this edition of Washington Irving's A Knickerbocker's History of New York is both accessible and entertaining.

Transforming the Workforce for Children Birth Through Age 8 Apr 30 2021 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who

provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with

children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge

and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress.

Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in

ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Wild Shots Nov 18 2022 This new memoir by renowned wildlife photographer, author, and naturalist Tom Walker shares his adventures living in Alaska for more than five decades. Wild Shots blends natural history with stories about Walker's wide-ranging

forays into the wilderness to photograph animals--beginning as a clueless "cheechako" (newcomer), but ultimately becoming a seasoned old-timer revered by many. Vivid, clear prose beautifully captures the landscape both around his home just outside of Denali National Park and wilderness destinations across the state. Following a loose chronology, Tom tracks his evolution as a novice wildlife watcher raised in the dusty hinterlands of Southern California to a more knowledgeable observer to homesteader and photographer to vocal conservationist. Collectively, the stories convey how, through all life's travails, nature remains his source of

inspiration, joy, and solace through visceral experience and his patient lens.

Major Tom's War Sep 23 2020
Major Tom's War is a powerful account of the impact of WWI on a doomed generation and on one Indian Army cavalry officer in particular. Why is Bengal-born solicitor Tom Westmacott desperate to flee Calcutta in 1914? And why does Evie

Winnington-Ingram, who has good cause to hate him, agree to his proposal of marriage? Their dark, shared past initially drives them apart. War forces them to face up to a harrowing present before they emerge, together, into an unexpected future. The author spins a unique tale of authentic experiences from her family's archive full of memorable characters: her grandfather Tom, the proud and damaged cavalry officer; his nurse and reluctant bride, Evie; Tom's vicious nemesis, Lochdubh; Amar Singh, the steadfast leader of the Sikhs; Tom's protector, Harnam Singh; the reckless yet terrified young lieutenant, Reggie Durand;

Gaston Derome, the hero mayor of Bavay, a French town clinging to survival under the heel of the invader; and four unforgettable horses.

Cop Shows Oct 05 2021 After twenty-two years working in precincts like Fort Apache in the Bronx, I decided to write some stories that relate to my experiences in these locations. The stories are unique in that they deal with subjects and material that are not common to police procedurals. For example, "The King Cole Trio" is about three black officers working in Harlem in the '40s, '50s, and '60s. These officers were so beloved by the neighborhood for taking not only on the Mafia but also the local black gangs in the area and accomplishing such feats as preventing the assassination

of Olympic champion Jesse Owens. Each of these eighteen stories has their special insights into the conditions that the police are confronted with. [The Seventymile Kid](#) Oct 17 2022 [CLICK HERE](#) to download the first two chapters from *The Seventymile Kid* * A true and complete account of the first successful ascent of Mount McKinley—setting the record straight * The summer of 2013 marks the 100th anniversary of the McKinley's first ascent * Features archival photographs, including rare and never-before-published images *The Seventymile Kid* tells the remarkable account of Harry Karstens, who was the actual—if unheralded—leader

of the Hudson Stuck Expedition that was the first to summit Mount McKinley in Alaska. All but forgotten by history, a young Karstens arrived in the Yukon during the 1897 Gold Rush, gained fame as a dog musher hauling U.S. Mail in Alaska, and eventually became the first superintendent of Mount McKinley National Park (now known as Denali National Park and Preserve). Aided by Karstens's own journals, longtime Denali writer and photographer Tom Walker uncovered archival information about the Stuck climb, and reveals that the Stuck "triumph" was an expedition marred by significant conflict. Without Karstens's wilderness

skills and Alaska-honed tenacity, it is quite possible Hudson Stuck would never have climbed anywhere near the summit of McKinley. Yet the two men had a falling out shortly after the climb and never spoke again. In this book, Walker attempts to set the record straight about the historic first ascent itself, as well as other pioneer attempts by Frederick Cook and Judge Wickersham. Fans of Alaska literature, American history, and mountaineering lore will love this adventurous biography of the larger-than-life "sourdough" Karstens, in which Alaska—its wilderness, its iconic mountain, and its pioneer spirit—looms large.

The Devil and Daniel Webster
Jan 20 2023 Based on real events from the life of a prominent American lawyer, Daniel Webster, this short story

explores themes of patriotism, slavery, and Hell as the fictionalised Webster attempts to save a man's soul from the Devil. First published in 1936, *The Devil and Daniel Webster* was written by Stephen Vincent Benét. An allegorical exploration of what it means to be American, the short story plays on real events. It utilises fictionalised versions of real people in US history to explore the country's obsession with freedom and independence. Daniel Webster (1782-1852) was a prominent lawyer in the nineteenth century, arguing over 200 cases before the Supreme Court. In this short story, he attempts to save a man's soul and puts his

persuasive powers to the test against the harshest judge of all: the Devil.

The Death of Expertise Jul 22 2020
Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens

believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an

educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a

warning about the stability and survival of modern democracy in the Information Age that is even more important today. It follows the adventures of Tom Tom as he goes to preschool, eats lunch with Granny Annie in the

bottom camp, swims in the Lemonade Springs in the afternoon and spends the night with Granny May and grandfather Jo in the top camp.
