Health Care Comes Home Oct 23 2020 In the United States, health care devices, technologies, and practices are rapidly moving into the home. The factors driving this migration include the costs of health care, the growing numbers of older adults, the increasing prevalence of chronic conditions and diseases and improved survival rates for people with those conditions and diseases, and a wide range of technological innovations. The health care that results varies considerably in its safety, effectiveness, and efficiency, as well as in its quality and cost. Health Care Comes Home reviews the state of current knowledge and practice about many aspects of health care in residential settings and explores the short- and long-term effects of emerging trends and technologies. By evaluating existing systems, the book identifies design problems and imbalances between technological system demands and the capabilities of users. Health Care Comes Home recommends critical steps to improve health care in the home. The book's recommendations cover the regulation of health care technologies, proper training and preparation for people who provide in-home care, and how existing housing can be modified and new accessible housing can be better designed for residential health care. The book also identifies knowledge gaps in the field and how these can be addressed through research and development initiatives. Health Care Comes Home lays the foundation for the integration of human health factors with the design and implementation of home health care devices, technologies, and practices. The book describes ways in which the Agency for Healthcare Research and Quality (AHRQ), the U.S. Food and Drug Administration (FDA), and federal housing agencies can collaborate to improve the quality of health care at home. It is also a valuable

resource for residential health care providers and caregivers.

Start Your Own Senior Home Care Business Nov 04 2021 Your Complete Guide to Starting a Profitable Senior Home Care Business. A senior home care business offers you: Flexible hours. Be your own boss. A recession-proof business. Start on a shoestring. In this book, you'll discover: How to get started with just a few hundred dollars. How to price your services. How to get a steady stream of new customers. State-by-state licensing information. The 12 most in-demand services to offer. The 5 essential forms you'll need to succeed.

Dementia Home Care Feb 07 2022 The target audience is women between the ages of 42 and 65. They represent the majority of unpaid care givers for loved ones with dementia. *Dementia Home Care: How to Prepare Before, During and After* will examine taking on the role of care giver and help them make informed decisions about in-home care giving. It will give examples of how to create a safe living space, how to use distraction techniques, and suggest available resources for the care giver. It will emphasize the role of care giver respite and participating in dementia community support to relieve the daily stress of dementia care. Home care giver, Tracy Cram Perkins, will use anecdotes drawn from twelve years of experience. *Demetia Home Care* will cover aggressive behavior, coping strategies, memory aids, communication aids, and support services. There is a space at the end of each chapter for the reader to record special or humorous moments with their loved ones. And it will address the empty nester experience after the loss of a loved one—to a nursing facility or to death—rarely covered in other books of this genre. This life-lesson of care giving is not meant to destroy us but meant to remind us to take care of ourselves, forgive ourselves, accept ourselves. To know other people trudge up this same hill with us every day. To pay forward kindness in some measure. To know laughter has not abandoned us. At the end, to know some measure of joy. -- Tracy Cram Perkins

Stages of Senior Care: Your Step-by-Step Guide to Making the Best Decisions Aug 01 2021 A USA Today BESTSELLER! "Informative. Complete. And practical. This book will guide family caregivers through the surprisingly complex world of senior care." —MEHMET OZ, M.D., New York Times bestselling coauthor of *YOU: The Owner's Manual: The Complete All-in-One Care Guide* Choosing the best care for your aging parents and other seniors in your life is not only complex, with multiple options available, it's also highly personal and often emotional. This essential resource—written by the founders of Home Instead Senior Care, the world's largest provider of nonmedical care for seniors—guides you through a comprehensive range of things to consider, step by step, so you can make better informed decisions and be confident that the senior in your life is receiving the best care possible. Checklists and diagnostics will help you: Decide if at-home care is the right choice for you and your loved ones Evaluate the pros and cons of retirement communities, adult care centers, nonmedical caregivers, assisted living facilities, nursing homes, and hospice Determine the costs of senior care options and find helpful support networks "This is not just another book about caring for aging parents. It's a great reference you'll use again and again. Stages doesn't shy away from the hard questions. Rather, it shows you how to confront them."—SUZANNE MINTZ, President/CEO, National Family Caregivers Association "Recognizing that there is no one-size-fits-all solution, this salient volume compassionately addresses a full range of hard-to-discuss subjects."--PUBLISHERS WEEKLY All of the authors' profits from the sale of this book will be donated to the Home Instead Senior Care Foundation. Paul and Lori Hogan founded Home Instead Senior Care in 1994. Now with 850 offices in 15 countries, Home Instead is recognized as a global leader and authority on senior care. Visit them at www.stagesofseniorcare.com.

Mosby's Textbook for the Home Care Aide Sep 21 2020 Covering the essential content and procedures a home care aide needs to know, Mosby's Textbook for the Home Care Aide, 3rd Edition prepares you for success in this rapidly growing field. A clear approach makes the book easy to use and understand, featuring hundreds of full-color photographs and drawings along with step-by-step procedures for skills performed by home care aides. Updated and expanded in this edition are chapters on meeting the client's nutritional needs and on getting and keeping a job. Written by home care experts Joan Birchenall and Eileen Streight, this textbook prepares you for the many types of situations you may encounter as a home care aide. Hundreds of full-color photos and drawings depict key ideas and clearly demonstrate procedure steps. Procedures provide step-by-step, easy-to-understand instructions on performing important skills and tasks. UNIQUE! A cast of caregivers, including a supervisor and four home care aides, are highlighted in scenarios that provide realistic examples of the types of situations you are likely to encounter in the home care environment. Guidelines for Observing, Recording, and Reporting (ORR) are highlighted throughout the text, emphasizing the home care aide's responsibilities for observing and documenting the client's condition and care. Key considerations and reminders are presented in color font to emphasize the importance of performing these actions. Objectives and Key Terms in each chapter focus your attention on essential information. Chapter summaries and study questions review the key points in each chapter. Updated/Expanded Meeting the Client's Nutritional Needs chapter includes the new MyPlate food guide and new nutrition guidelines. Updated/Expanded Getting a Job and Keeping It chapter reflects the job prospects and challenges of today, including the realities of moving between states and differences in certification requirements. Updated equipment photos are included. Evolve companion website includes skills competency checklists and an audio glossary.

Joint Commission International Accreditation Standards for Home Care Jun 18 2020 This manual includes JCI's updated requirements for home care organizations effective 1 July 2012. All of the standards and accreditation policies and procedures are included, giving home care organizations around the world the information they need to pursue or maintain JCI accreditation and maximize patient-safe care. The manual contains Joint Commission International's (JCI's) standards, intent statements, and measurable elements for home care organizations, including patient-centered and organizational requirements.

New Developments in Home Care Services for the Elderly Dec 13 2019 This anthology responds to the recurring call for quality in home care service provision. It presents to agency administrators, managers, supervisors, and front line service providers a set of the most up-to-date policy, program, and practice developments in the field. Each contributor to *New Developments in Home Care Services for the Elderly* explores issues of client/staff diversity and the challenges associated with working with clients grappling with disabling conditions. Contributors in *New Developments in Home Care Services for the Elderly* explore issues of client/staff diversity and the challenges associated with working with clients grappling with various disabling conditions. Topics addressed include: alternative organizational models in home care the importation of high technology services into the home legal and ethical issues in home health care counseling homebound clients and their families clinical assessment tools and packages case management and the home care client home care entitlements and benefits evaluating and monitoring the effectiveness of in-home care marketing home health care services home care service experiences in other countries *New Developments in Home Care Services for the elderly* covers a continuum of care ranging from housekeeping services to self-care education, teaching, and training services to nursing and medically related services. Consequently, the information contained within this volume is of immediate relevance to a multidisciplinary audience having both direct (field) and indirect (office) service responsibilities in the home care organization. Social workers,

nurses, business administrators, and public health professionals will find this an invaluable guide for providing effective home care services.

This book will help your aides master what they need to know to provide excellent, compassionate care to clients with very different needs. This book is organized around learning objectives with colored tabs for easy location of material. The second edition contains new and/or updated information on: HIPPA and protecting a client's privacy MRSA and VRE Care for the client with COPD Cultural sensitivity Hip replacement care Mercury-free thermometers Disinfection and sterilization NEW two-step procedure for taking blood pressure We also condensed and made the anatomy and physiology chapter more basic, added chapter review questions, and updated the design and many of the illustrations.

Families Caring for an Aging America Apr 28 2021 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Handbook of Home Health Care Administration Apr 09 2022 Professional reference for Nurses on Home Health Care

Conquering the Crisis Oct 11 2019 It's official: there's a crisis in home health care. The crisis? There aren't enough caregivers This is already a recognized industry problem, but it's likely only to get worse. This is a point in history, after all, when about 10,000 Baby Boomers turn 65 every day--and more of them are needing health care. What do we do? Stephen Tweed is a foremost expert on the home health industry's caregiver recruiting and retention crisis. He shares his insight and solutions in *Conquering the Crisis*--so that anyone reading it may find themselves doing just that.

The Slight Edge Aug 13 2022 The Slight Edge is a way of thinking, a way of processing information that enables you to make the daily choices that will lead you to the success and happiness you desire. Learn why some people make dream after dream come true, while others just continue dreaming and spend their lives building dreams for someone else. It's not just another self-help motivation tool of methods you must learn in order to travel the path to success. It shows you how to create powerful results from the simple daily activities of your life, by using tools that are already within you. In this 8th anniversary edition you'll read not only the life-changing concepts of the original book, but also learn what author Jeff Olson discovered as he continued along the slight edge path: the Secret to Happiness and the Ripple Effect. This edition of *The Slight Edge* isn't just the story, but also how the story continues to create life-altering dynamics--how a way of thinking, a way of processing information, can impact daily choices that will lead you to the success and happiness you desire. The Slight Edge is "the key" that will make all the other how-to books and self-help information that you read, watch and hear actually work.

Home Care Fault Lines May 10 2022 In this revealing look at home care, Cynthia J. Cranford illustrates how elderly and disabled people and

the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages, abilities, races, nationalities, and socioeconomic backgrounds generate tension. As Cranford shows, workers can experience devaluation within racialized and gendered class hierarchies, which shapes their pursuit of security. Cranford analyzes the tensions, alliances, and compromises between security for workers and flexibility for elderly and disabled people, and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics. What comes through from Cranford's analysis is the need for deeply democratic alliances across multiple axes of inequality. To support both flexible care and secure work, she argues for an intimate community unionism that advocates for universal state funding, designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers, and addresses everyday tensions in home workplaces.

Home Care How to Feb 19 2023 *Home Care How To* is an in depth guide to helping anyone start and run their own in home care business. You will learn the systems and step-by-step activities required to setting up and operating your elder care company. Discover the secrets, opportunities and pitfalls to watch for that other senior care and home health agency franchisees pay tens of thousands for! Find out how to staff your business with excellent care providers and how to effectively market your services to the growing number of aging baby boomers and their parents.

Workbook for Providing Home Care Jul 12 2022

Occupational Outlook Handbook Jul 20 2020

Caregiving and Home Care Jan 26 2021 The management of chronic diseases is one of the tasks of all members of the health team, and different models need to be applied in the practice of chronic care management. One of these models is home care services. There are two main sections in this book. In the first part of the section, the concept of caregiving and care at home is explained. In the second part, the responsibilities of caregivers at home and the responsibilities of caregivers of people who have health problems that occur during different periods of life are discussed. In the second section, the problems of caregivers are also included. I would like to think that what is quoted in this book, which contains examples from different cultures of the world for home care approaches, will contribute to the development of home care services. This book is presented to all health professionals working in the field of health services as well as health politics professionals and students trained in these areas.

The Role of Human Factors in Home Health Care Dec 17 2022 The rapid growth of home health care has raised many unsolved issues and will have consequences that are far too broad for any one group to analyze in their entirety. Yet a major influence on the safety, quality, and effectiveness of home health care will be the set of issues encompassed by the field of human factors research-the discipline of applying what is known about human capabilities and limitations to the design of products, processes, systems, and work environments. To address these challenges, the National Research Council began a multidisciplinary study to examine a diverse range of behavioral and human factors issues resulting from the increasing migration of medical devices, technologies, and care practices into the home. Its goal is to lay the groundwork for a thorough integration of human factors research with the design and implementation of home health care devices, technologies, and practices. On October 1 and 2, 2009, a group of human factors and other experts met to consider a diverse range of behavioral and human factors issues associated with the increasing migration of medical devices, technologies, and care practices into the home. This book is a summary of that workshop, representing the culmination of the first phase of the study.

The Future of Home Health Care Nov 16 2022 Individuals with disabilities, chronic conditions, and functional impairments need a range of services and supports to keep living independently. However, there often is not a strong link between medical care provided in the home and the necessary social services and supports for independent living. Home health agencies and others are rising to the challenges of meeting the needs and demands of these populations to stay at home by exploring alternative models of care and payment approaches, the best use of their workforces, and technologies that can enhance independent living. All of these challenges and opportunities lead to the consideration of how home health care fits into the future health care system overall. On September 30 and October 1, 2014, the Institute of Medicine and the National Research Council convened a public workshop on the future of home health care. The workshop brought together a spectrum of public and private stakeholders and thought leaders to improve understanding of the current role of Medicare home health care in supporting aging in place and in helping high-risk, chronically ill, and disabled Americans receive health care in their communities. Through presentations and discussion, participants explored the evolving role of Medicare home health care in caring for Americans in the future, including how to integrate Medicare home health care into new models for the delivery of care and the future health care marketplace. The workshop also considered the key policy reforms and investments in workforces, technologies, and research needed to leverage the value of home health care to support older Americans, and research priorities that can help clarify the value of home health care. This summary captures important points raised by the individual speakers and workshop participants.

Home Health Care Jan 14 2020

Nursing Home Care in the United States: Doctors in nursing homes : the shunned responsibility May 18 2020

Patient Safety and Quality Jan 18 2023 "Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need to know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- *Patient Safety and Quality: An Evidence-Based Handbook for Nurses*. (AHRQ Publication No. 08-0043)." - online AHRQ blurb, <http://www.ahrq.gov/qual/nursesdbk/>

Home Care Nursing Handbook Dec 05 2021 Here's the brand new third edition of the very popular Home Care Nursing Handbook -- considered by readers as a "beacon of excellence" in home care nursing. Now better than ever, this book that so many nurses have turned to for immediate, excellent advice, has been significantly expanded. It is reorganized for quicker access to expert guidance & devotes separate chapters to interventions for each impairment. Use this guide every day to assess situations quickly, develop efficient plans of care, provide accurate intervention strategies, document patient care quickly & precisely, promote quality patient outcomes--in the shortest number of contacts, & so much more. This book is a vital addition to critical pathways, point-of-care computer systems, & OASIS data collection.

Education in Out-of-Home Care Apr 16 2020 This book draws together for the first time some of the most important international policy practice and research relating to education in out-of-home care. It addresses the knowledge gap around how good learning experiences can enrich and add enjoyment to the lives of children and young people as they grow and develop. Through its ecological-development lens it focuses sharply on the experience of learning from early childhood to tertiary education. It offers empirical insights and best practices examples of

learning and caregiving contexts with children and young people in formal learning settings, at home and in the community. This book is highly relevant for education and training programs in pedagogy, psychology, social work, youth work, residential care, foster care and kinship care along with early childhood, primary, secondary and tertiary education courses.

Infection Control in Home Care and Hospice Feb 24 2021 An official publication of the Association for Professionals in Infection Control and Epidemiology, Inc. (APIC), the highly successful Infection Control in Home Care and Hospice helps home care providers assess the infection control needs of their organization, and develop home care infection and surveillance programs. The Second Edition has been thoroughly updated and revised with the latest CDC Guidelines on infection control in home care, including Hand Hygiene, Prevention of IV-related Infections, and the 2004 Isolation Guideline.

Care Home Stories Sep 02 2021 Institutional care for seniors offers a cultural repository for fears and hopes about an aging population. Although enormous changes have occurred in how institutional care is structured, the legacies of the poorhouse still persist, creating panicked views of the nursing home as a dreaded fate. The paradoxical nature of a space meant to be both hospital and home offers up critical tensions for examination by age studies scholars. The essays in this book challenge stereotypes of institutional care for older adults, illustrate the changes that have occurred over time, and illuminate the continuities in the stories we tell about nursing homes.

Starting and Maintaining a Successful Home Care Business Jan 06 2022 Ever wanted to start home care agency, but didn't know where to start? I can relate. That's why I am excited to assist you by taking the guessing out of the equation. This step-by-step guide will help you with everything you need to start your business, from registering your business name to getting through your initial survey. You will learn how to setup your business, market your business and get your first client! In this guide, I will share with you how I went from being "clueless" to being in "Forbes Magazine."

Handbook of Home Health Care Administration Jun 30 2021 Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Handbook of Home Health Care, Fifth Edition has been completely revised and updated to provide up-to-date, specific, authoritative guidance for the successful administration and management of home health care agencies. An excellent, comprehensive text, this Handbook addresses detailed legal and legislative issues, case management processes, and state-of-the-art technology.

Home Care May 30 2021 Accompanying CD-ROM gives you the option of customizing patient instructions on your computer and then printing them out.

Home Health Nursing Sep 14 2022 This unique, spiral-bound handbook is compact, portable, and written with busy home health nurses in mind! Organized by body system, it offers instant advice on assessment and care planning for the disorders home health nurses are likely to encounter. Providing assessment guides for all body systems, the home environment, and the client's psychological status, it includes full care plans for over 50 illnesses and conditions most commonly encountered in the home. Each plan lists nursing diagnoses, short- and long-term expected outcomes, nursing interventions, and client caregiver interventions. Care plans are organized by body systems to allow for quick retrieval of information. Both short-term and long-term outcomes are included in the care plans to aid evaluation of the care provided. Detailed assessment guidelines are provided for all body systems to facilitate complete and comprehensive client examinations. Guidelines for environmental and safety assessments aid in the appraisal and improvement of clients' living conditions. Client and caregiver interventions are outlined in the care plans to promote

active client participation in self-care. The convenient pocket size makes transportation and use convenient to home health nurses. Appendices on documentation guidelines, laboratory values, medication administration, home care resources, and standard precautions provide quick access to useful home care information. Related OASIS items are identified in the assessment section, and ICD-9 diagnostic codes in the care plans section assist with proper home care documentation. Visit frequency and duration schedules are suggested within each care plan to assist nurses in evaluating and planning care. NANDA nursing diagnoses are consistent with the latest 2001-2002 nomenclature. An increase in suggested therapy referrals within the care plans and in a new appendix helps nurses identify indicators for specialized services. A fully updated Resources Appendix includes websites for easy access to home health service information.

Providing Home Care for Older Adults Feb 13 2020 A practical guide to providing home-based mental health services, *Providing Home Care for Older Adults* teaches readers how to handle the unique aspects of home-based care and apply and adapt evidence-based assessment and treatment within the home-based setting. Featuring contributions from experienced, board-certified home care psychologists, social workers, and psychiatrists, the book explains the multifaceted role of a home-based provider, offers concrete and practical considerations for working within the home, and highlights adaptations to specific evidence-based methods used in treating homebound older adults. Also covered are special topics related to hoarding, safety, capacity evaluations, caregivers, case management, and use of technology. Each chapter includes engaging case examples with practical tips that illustrate what it is like to work in this new and exciting frontier. Psychologists, counselors, and other mental health practitioners in home settings will be able to use this guide to provide effective home-based care to older adults.

Handbook of Home Health Standards Mar 28 2021 This 6th edition of this comprehensive handbook provides practical information about complex Medicare and other "rules" in home care. Areas include OASIS considerations, possible patient goals/outcomes, skills based on the assessed patient needs, comfort consideration, and caregiver considerations. All you need to know about care planning. Other areas include tips for supporting medical necessity, quality and reimbursement and more! The Medicare Benefit Policy Manual Chapter 7, Home Health Services is reprinted for easy reference and use.

Social Work in Geriatric Home Health Care Nov 11 2019 Explore how community-based networks can effectively meet the needs and problems of sick, elderly people and their caregivers! *Social Work in Geriatric Home Health Care: The Blending of Traditional Practice with Cooperative Strategies* explores how social workers, aides, nurses, administrators, and policy makers can cooperatively work by maintaining appropriate health records in order to keep the elderly living at home. Based on the author's twenty-five years of social work experience in geriatric home care case management, this book explores improved ways to organize home health care by use of cooperative strategies in order to assist older individuals in living independent lives at home. Complete with informative case studies and interviews, you will explore useful examples of geriatric social work practice through Concerned Home Managers for the Elderly, (COHME) a nonprofit, licensed home health care agency. *Social Work in Geriatric Home Health Care* examines many crucial geriatric care and case management issues of concern to geriatric social workers, including: offering meaningful and fulfilling work as a home health care aide providing high-quality training and ongoing education for home care aides creating a cooperative environment by encouraging staff, social workers, and nurses to share expertise with the case management coordinators who are responsible for placing the geriatric patient at home or in a special care facility involving the client in the management of his or her own health care creating concise, one-page reports for each home visit by using a "One-Sheet" to help you extract case assessments and

plans for your geriatric client in a readily accessible format dealing with state regulatory authorities and the general trend in home health care to place the elderly in nursing homes paying careful attention to financial and administrative problems within your organization while striving to remain true to your original mission of providing at-home care Social Work in Geriatric Home Health Care will help you explore a different way of organizing home health care for the sick and elderly at a time when the percentage of people over sixty-five who will require care is rapidly increasing. This important book works to improve the case management of geriatric people and challenges home health care workers and legislators to become more progressive in their thinking about the direction in which geriatric health care should move at the turn of the century. With this vital book, you will gain insight into organized and cooperative methods of providing home health care for the elderly and find improved methods for managing your geriatric cases to give your clients optimum care.

InterRAI Home Care (HC) Assessment Form and User's Manual Mar 16 2020 The interRAI HC Assessment System has been designed to be a user-friendly, reliable, person-centered system that informs and guides comprehensive planning of care and services for elderly and disabled persons in community-based settings around the world. It focuses on the person's functioning and quality of life by assessing needs, strengths, and preferences. It also facilitates referrals when appropriate. When used on multiple occasions, it provides the basis for an outcome-based assessment of the person's response to care or services. The interRAI HC Assessment System can be used to assess persons with chronic needs for care, as well as with post-acute care needs (e.g., after hospitalization or in a hospital-at-home situation).

Home Care Nursing Mar 08 2022 Tina M. Marrelli's new book, *Home Care Nursing: Surviving in an Ever-Changing Care Environment* is a practical and comprehensive guidebook written concisely and without jargon or insider acronyms, making the book accessible to anyone whose work is connected to home care nursing services. Designed to provide chapters as stand-alone resources for readers with previous experience seeking updated guidance, *Home Care Nursing* is also an excellent guide for course or orientation material. Each chapter is packed with practical questions, discussion topics, and additional resources, such as a complete Medicare Benefit Policy for reference. Additionally, offering more than just an overview of the healthcare and home care markets, this book discusses the unique practice setting and environment of home care nursing, the laws regulations, and quality, and how to make the leap into the field, document your home visit, and improve your professional growth and development. -- Résumé de l'éditeur.

Home Care Nursing Practice Oct 03 2021 "This text covers conceptual information, leadership skills and current issues and trends. It provides clear and concise information about the best practices and quality improvement for the most common clinical conditions seen in home care." -- Cover.

Handbook of Home Health Standards Jun 11 2022 Home care clinicians everywhere depend on "the little red book" for essential, everyday

information: detailed standards and documentation guidelines including ICD-9-CM diagnostic codes, current NANDA-I and OASIS information, factors justifying homebound status, interdisciplinary goals and outcomes, reimbursement considerations, and evidence-based resources for practice and education. Completely revised and updated, this indispensable handbook now includes the most recently revised Federal Register Final Rule and up-to-date coding guidelines.
