Lager explores the history, styles, brewing techniques, and allure of the world's most popular type of beer. This is the perfect book for anyone getting into homebrew, with easy-to-follow instructions, must-try recipes, expert tips, and everything else a homebrewer could want. Get brewing today with a crash course in brewing ingredients and process. Then level up with dozens of recipes from some of today's top craft brewers—including big names like Allagash, The Bruery, and Surly. All your favorites are here, from

porter and stout to India Pale Ale and saison. While some recipes hew to tradition, others push the envelope. Master the use of unusual ingredients and learn brew-day secrets that go far beyond the average recipe. All recipes come with step-by-step instructions and some include features on the brewers themselves. Learn the basics, then impress your family with beers that feature honey, fruit, tea, and more. Dive into the history of key beer styles and try your hand at historical recipes from the 1800s. Or, if you're into beers that go with the local food movement, browse the chapter on growing your own hops and other beer ingredients! Brewing craft and artisanal beer has become a labor of love for enthusiasts and epicures the world over, with new people joining the ranks every year. The Brewer's Apprentice is a behind-the-scenes guide to all aspects of this classic art. However, instead of simply sharing brewing recipes, tasting guides, or buying recommendations as many other books do, our book gives readers unique insights into craft brewing culture, and let the "masters" speak in their own words. In a series of in-depth profiles, the legends, innovators, rising stars of the beer world share their deep reserves of brew knowledge, insider tips, recipes, and more. Inside you'll learn:- Sourcing the best ingredients, brewing "locally" and

seasonally-Farm-to-table brewing: hops, barley, wheat, and more-Setting up your homebrewing workshop-Brewing chemistry: how does it all work?-Nontraditional ingredients, extreme brews, and novelty drinks-Meads, lambics, ciders, and other nectars of the gods-Barrel-aging beers One of Smithsonian Magazine's Ten Best Books of the Year about Food A Forbes Best Booze Book of the Year Interweaving archaeology and science, Patrick E. McGovern tells the enthralling story of the world's oldest alcoholic beverages and the cultures that created them. Humans invented heady concoctions, experimenting with fruits, honey, cereals, tree resins, botanicals, and more. These "liquid time capsules" carried social, medicinal, and religious significance with far-reaching consequences for our species. McGovern describes nine extreme fermented beverages of our ancestors, including the Midas Touch from Turkey and the 9000-year-old Chateau Jiahu from Neolithic China, the earliest chemically identified alcoholic drink yet discovered. For the adventuresome, homebrew interpretations of the ancient drinks are provided, with matching meal recipes. Charting the birth and growth of craft beer across the United States, Tom Acitelli offers an epic, story-driven account of one of the most inspiring and surprising American grassroots movements. In 1975,

there was a single craft brewery in the United States; today there are more than 2,500. This entertaining and informative history brims with charming, remarkable stories, which together weave a very American business tale of formidable odds and refreshing success. Winner of 2014 U.S. Gourmand Drinks Award • Taste 5,000 years of brewing history as a time-traveling homebrewer rediscovers and re-creates the great beers of the past. The Brewer's Tale is a beer-filled journey into the past: the story of brewers gone by and one brave writer's quest to bring them—and their ancient, forgotten beers—back to life, one taste at a time. This is the story of the world according to beer, a toast to flavors born of necessity and place—in Belgian monasteries, rundown farmhouses, and the basement nanobrewery next door. So pull up a barstool and raise a glass to 5,000 years of fermented magic. Fueled by date-and-honey gruel, sour pediococcus-laced lambics, and all manner of beers between, William Bostwick's rollicking quest for the drink's origins takes him into the redwood forests of Sonoma County, to bullet-riddled South Boston brewpubs, and across the Atlantic, from Mesopotamian sands to medieval monasteries to British brewing factories. Bostwick compares notes with the Mt. Vernon historian in charge of preserving

George Washington's molasses-based home brew, and he finds the ancestor of today's macrobrewed lagers in a nineteenth-century spy's hollowed-out walking stick. Wrapped around this modern reportage are deeply informed tales of history's archetypal brewers: Babylonian temple workers, Nordic shamans, patriots, rebels, and monks. The Brewer's Tale unfurls from the ancient goddess Ninkasi, ruler of intoxication, to the cryptic beer hymns of the Rig Veda and down into the clove-scented treasure holds of India-bound sailing ships. With each discovery comes Bostwick's own turn at the brew pot, an exercise that honors the audacity and experimentation of the craft. A sticky English porter, a pricelessly rare Belgian, and a sacred, shamanic wormwood-tinged gruit each offer humble communion with the brewers of yore. From sickly sweet Nordic grogs to industrially fine-tuned fizzy lager, Bostwick's journey into brewing history ultimately arrives at the head of the modern craft beer movement and gazes eagerly if a bit blurry-eyed toward the future of beer. Radical Brewing takes a hip and creative look at beer brewing, presented with a graphically appealing two-color layout. Primitive beers, country wines, herbal meads, natural sodas, and more Baudar has elevated the concept of terroir into the realm of extreme beverages, both fermented and unfermented. His book brings to life the innovative quest of the Palaeolithic shaman/healer/brewer.--Patrick E. McGovern, author of Ancient Brews Fermentation fans and home brewers can rediscover "primitive" drinks and their unique flavors in The Wildcrafting Brewer. Wild-plant expert and forager Pascal Baudar's first book, The New Wildcrafted Cuisine, opened up a whole new world of possibilities for readers wishing to explore and capture the flavors of their local terroir. The Wildcrafting Brewer does the same for fermented drinks. Baudar reveals both the underlying philosophy and the practical techniques for making your own delicious concoctions, including: Wild sodas Country wines Primitive herbal beers Meads Traditional ferments like tiswin and kvass. The book opens with a retrospective of plant-based brewing and ancient beers. The author then

goes on to describe both hot and cold brewing methods and provides lots of interesting recipes; mugwort beer, horehound beer, and manzanita cider are just a few of the many drinks represented. Baudar is quick to point out that these recipes serve mainly as a touchstone for readers, who can then use the information and techniques he provides to create their own brews, using their own local ingredients. *The Wildcrafting Brewer* will attract herbalists, foragers, natural-foodies, and chefs alike with the author's playful and relaxed philosophy. Readers will find themselves surprised by how easy making your own natural drinks can be, and will be inspired, again, by the abundance of nature all around them. With gorgeous photos and clear technical details, this book will be a source of great inspiration.--Sandor Ellix Katz, author of *The Art of Fermentation* "At last, a definitive guide to the medicinal origins of every bottle behind the bar! This is the cocktail book of the year, if not the decade." —Amy Stewart, author of *The Drunken Botanist* and *Wicked Plants* "A fascinating book that makes a brilliant historical case for what I've been saying all along: alcohol is good for you...okay maybe it's not technically good for you, but [English] shows that through most of human history, it's sure beat the heck out of water." —Alton Brown, creator of *Good*

Eats Beer-based wound care, deworming with wine, whiskey for snakebites, and medicinal mixers to defeat malaria, scurvy, and plague: how today's tipples were the tonics of old. Alcohol and Medicine have an inextricably intertwined history, with innovations in each altering the path of the other. The story stretches back to ancient times, when beer and wine were used to provide nutrition and hydration, and were employed as solvents for healing botanicals. Over time, alchemists distilled elixirs designed to cure all diseases, monastic apothecaries developed mystical botanical liqueurs, traveling physicians concocted dubious intoxicating nostrums, and the drinks we're familiar with today began to take form. In turn, scientists studied fermentation and formed the germ theory of disease, and developed an understanding of elemental gases and anesthetics. Modern cocktails like the Old-Fashioned, Gimlet, and Gin and Tonic were born as delicious remedies for diseases and discomforts. In *Doctors and Distillers*, cocktails and spirits expert Camper English reveals how and why the contents of our medicine and liquor cabinets were, until surprisingly recently, one and the same. A New York Times Best Seller A full-color, lushly illustrated graphic novel that recounts the many-layered past and present of beer through dynamic pairings of pictures and meticulously researched insight into the history of the world's favorite brew. The History of Beer Comes to Life! We drink it. We love it. But how much do we really know about beer? Starting from around 7000 BC, beer has emerged as a major element driving humankind's development, a role it has continued to play through today's craft brewing explosion. With The Comic Book Story of Beer, the first-ever nonfiction graphic novel focused on this most favored beverage, you can follow along from the very beginning, as authors Jonathan Hennessey and Mike Smith team up with illustrator Aaron McConnell to present the key figures, events, and, yes, beers that shaped and frequently made history. No boring, old historical text here, McConnell's versatile art style—moving from period-accurate renderings to cartoony diagrams to historical caricatures and back—finds an equal and effective partner in the pithy, informative text of Hennessey and Smith presented in captions and word balloons on each page. The end result is a filling mixture of words and pictures sure to please the beer aficionado and

comics geek alike. Clone the best 150 beers in North America without leaving your kitchen! Each recipe comes complete with partial-mash, all-extract, and all-grain instructions. Personal tales of perseverance and beer making from the founder of Sierra Nevada Brewing Co. Beyond the Pale chronicles Ken Grossman's journey from hobbyist homebrewer to owner of Sierra Nevada Brewing Co., one of the most successful craft breweries in the United States. From youthful adventures to pioneering craft brewer, Ken Grossman shares the trials and tribulations of building a brewery that produces more than 800,000 barrels of beer a year while maintaining its commitment to using the finest ingredients available. Since Grossman founded Sierra Nevada in 1980, part of a growing beer revolution in America, critics have proclaimed his beer to be "among the best brewed anywhere in the world." Beyond the Pale describes Grossman's unique approach to making and distributing one of America's best-loved brands of beer, while focusing on people, the planet and the product Explores the "Sierra Nevada way," as exemplified by founder Ken Grossman, which includes an emphasis on sustainability, nonconformity, following one's passion, and doing things the right way Details Grossman's start, homebrewing five-gallon batches of beer on his own,

becoming a proficient home brewer, and later, building a small brewery in the town of Chico, California *Beyond the Pale* shows how with hard work, dedication, and focus, you can be successful following your dream. **GLOBALLY INSPIRED RECIPES TO BREW AT HOME** With the creativity behind today's craft-beer revolution reaching all-time heights, both new and experienced brewers are looking to expand their palates. Brooklyn Brew Shop founders Erica Shea and Stephen Valand took a tour of the world's most innovative and storied breweries and returned with thirty-three stovetop-ready recipes for silky stouts, citrusy IPAs, and robust porters, along with stories inspired by the global community of small-batch brewers. Now Erica and Stephen bring the taste of world-class beer into your kitchen (no matter how small it is). They share a German-style Smoked Wheat, an aromatic Single Hop IPA inspired by The Kernel in London's Maltby Street Market, as well as recipes straight from the brewmasters, including an imperial stout from Evil Twin, Ranger Creek's Mesquite Smoked Porter, and a Chocolate Stout from Steve Hindy, the founder of Brooklyn Brewery. Since beer is best with food, Erica and Stephen have also included recipes for a Farmhouse Ale Risotto, Spent Grain No-Rise Pizza Dough, Shandy Ice Pops, IPA Hummus, and more.

With tips and introductory techniques to get you started brewing if you're a first-timer, you'll have world-class, small-batch beer ready to drink in no time. "The first major reference work to investigate the history and vast scope of beer, The Oxford Companion to Beer features more than 1,100 A-Z entries written by 166 of the world's most prominent beer experts"--Provided by publisher. In the 1970s and '80s, the brewing industry shifted was from large corporate suppliers to smaller, independent "microbrewers," typified by producers such as the Boston Beer Company and Sierra Nevada Brewing Company. Today, the market is going even smaller—with tiny, independent brewers setting up shop in neighborhood brew houses nationwide, focusing on crafting unique, flavorful brews specifically for their extremely local clientele. The reality is that beer is in the midst of a renaissance in this country, driven by a new class of these dedicated craft "nanobrewers" and growing communities of drinkers looking for something more from their daily brew—something higher-quality, more unique, more local. These microbrewers rent out small spaces or buy industrial equipment to install in their garages. They're accountants, middle-school teachers, and plumbers who are passionate about beer and who dedicate their free time to

producing three or so barrels of their own brew at a time. They sell their bottles to close friends and gift it to family members for birthdays and holidays. They enjoy what they do and they're proud of their product. What's it like inside these small-time brewing operations? What happens behind the scenes? What goes into making high-end craft beer on a small scale? True Beer takes an on-the-ground look at the ultra-small side of the craft brewing movement from the inside out by profiling a number of independent American breweries in detail and using that as a jumping-off point to examine the art and science of brewing, the local farmers and providers behind the scenes, the market itself as well as national trends in nanobrewing, and modern craft beer production. Skyhorse Publishing, along with our Good Books and Arcade imprints, is proud to publish a broad range of cookbooks, including books on juicing, grilling, baking, frying, home brewing and winemaking, slow cookers, and cast iron cooking. We've been successful with books on gluten-free cooking, vegetarian and vegan cooking, paleo, raw foods, and more. Our list includes French cooking, Swedish cooking, Austrian and German cooking, Cajun cooking, as well as books on jerky, canning and preserving, peanut butter, meatballs, oil and vinegar, bone broth, and more. While not every

title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. Enjoy a quick brew day and make Gose, Smoked Ale, Pennsylvania Swankey, Strawberry-Peppercorn Short Mead, Tart Blackberry Cider, Boozy Kombucha, Kefir Beer, Absinthola, Mauby, Tepache, and more! Homebrew tastes great, it's inexpensive to make, and it's equally fun to brew old favorites and new recipes. There's only one thing stopping you from brewing your 1st or 101st batch: time. Whether it's your kids, your job, or a million other things, it can be hard to find a free brew day. Then there's the agonizing wait to crack that first cap. But what if you could brew a session IPA in just a few hours? Or if you could brew a sour beer that's ready to drink in weeks instead of months? In *Speed Brewing*, author Mary Izett shows you how to make it happen. Whether you're a new or experienced brewer, you'll find time-saving techniques and recipes that save hours on brew day. You'll also find beers, ciders, and meads that pack big flavors but ferment quickly. Lesser-known fast fermentables--boozy kombucha, kefir beer, spirited sodas, and more--ensure there are plenty of exciting experiments for even the most creative brewer.

Whether you decide to brew the Bia Hoi, Smoked Summer Ale, or Strawberry-Peppercorn Short Mead, weeknights will never be the same. Traces the history and lore of moonshine from its pioneer origins, through prohibition, to today's artisanal libations, offering instructions for building a still, basic distilling techniques, and dozens of recipes. Experimentation, mystery, resourcefulness, and above all, fun—these are the hallmarks of brewing beer like a Yeti. Since the craft beer and homebrewing boom of the late twentieth and early twenty-first centuries, beer lovers have enjoyed drinking and brewing a vast array of beer styles. However, most are brewed to accentuate a single ingredient—hops—and few contain the myriad herbs and spices that were standard in beer and gruit recipes from medieval times back to ancient people's discovery that grain could be malted and fermented into beer. Like his first book, *Make Mead Like a Viking*, Jereme Zimmerman's *Brew Beer Like a Yeti* returns to ancient practices and ingredients and brings storytelling, mysticism, and folklore back to the brewing process, including a broad range of ales, gruits, bragots, and other styles that have undeservingly taken a backseat to the IPA. Recipes inspired by traditions around the globe include sahti, gotlandsdricka, oak bark and mushroom ale,

wassail, pawpaw wheat, chicha de muko, and even Neolithic “stone” beers. More importantly, under the guidance of “the world’s only peace-loving, green-living Appalachian Yeti Viking,” readers will learn about the many ways to go beyond the pale ale, utilizing alternatives to standard grains, hops, and commercial yeasts to defy the strictures of style and design their own brews. Craft beer is about innovation, discovery and interpretation.

Homebrewing is about all that and more! As the beer scene evolves, so do the beer styles we know and love. In *Modern Homebrew Recipes*, Grandmaster Beer Judge and author Gordon Strong takes you on a guided journey of brewing discovery that includes information about some of the latest BJCP style changes. Following a primer on specific mashing and hopping techniques, recipe formulation fundamentals and how to adapt recipes to your system, Strong shares more than 100 distinctive recipes. Strong also provides specific advice and sensory profiles for each beer. Strong’s recipes are provided as-brewed, with delicious variations to get the creative juices flowing. *Modern Homebrew Recipes* is more than a book of recipes; it’s a book that sets brewers on the path to discovering what’s new in the world of homebrewing. *Brewing Better Beer* is a comprehensive look at technical, practical

and creative homebrewing advice from Gordon Strong, three-time winner of the coveted National Homebrew Competition Ninkasi Award. Discover techniques, philosophy, recipes and tips that will help you take your homebrew to the next level. One of the most exciting and dynamic segments of today's craft brewing scene, American-brewed sour beers are designed intentionally to be tart and may be inoculated with souring bacteria, fermented with wild yeast or fruit, aged in barrels or blended with younger beer. Craft brewers and homebrewers have adapted traditional European techniques to create some of the world's most distinctive and experimental styles. This book details the wide array of processes and ingredients in American sour beer production, with actionable advice for each stage of the process. Inspiration, education and practical applications for brewers of all levels are provided by some of the country's best known sour beer brewers. Award-winning author and forager Pascal Baudar uncovers incredible flavors and inspiring recipes to create unique, place-based vinegars using any landscape. Includes more than 100 delicious, easy recipes for quick pickles, soups, sauces, salad dressings, beverages, desserts, jams, and more!

"[Wildcrafted Vinegars] celebrates the versatility of this all-important—but often overlooked—acid in the

kitchen."—Plate Magazine After covering yeast fermentation (*The Wildcrafting Brewer*) and lactic acid fermentation (*Wildcrafted Fermentation*), pioneering food expert Pascal Baudar completes his wild fermentation trilogy by tackling acetic acid ferments and the wide array of dishes you can create with them. Baudar delves deeply into the natural world for wild-gathered flavors: herbs, fruits, berries, roots, mushrooms—even wood, bark, and leaves—that play a vital part in infusing distinctive gourmet-quality vinegars. More than 100 recipes show how to use homemade vinegars to make a wide range of delicious foods: quick pickles, soups, sauces, salad dressings, beverages, desserts, jams, and other preserves. Recipes include: Pine, fir, and spruce–infused vinegar Smoked mushroom and seaweed vinegar Blueberry-mugwort vinegar Wilder curry vinaigrette Wasabi ginger vinegar sauce Pickled walnuts Mountain oxymel And many more! Once you've mastered the basic methods for making and aging vinegars at home, you might be inspired to experiment on your own and find local plants that express the unique landscape and terroir wherever you happen to live. Or you might decide to forage for ingredients in your own garden or at a local farmers market instead. Either way, Pascal Baudar is an experienced and encouraging guide to safe and

responsible wild-gathering and food preservation. “Pascal Baudar is a culinary visionary.”—Sandor Ellix Katz, author of *The Art of Fermentation* On the night of April 17, 1945, Allied planes dropped 111 bombs on the Burghers' Brewery in Pilsen, Czechoslovakia, destroying much of the birthplace of pilsner, the world's most popular beer style and the best-selling alcoholic beverage of all time. Still, workers at the brewery would rally so they could have beer to toast their American, Canadian, and British liberators the following month. It was another twist in pilsner's remarkable story, one that started in a supernova of technological, political, and demographic shifts in the mid-1800s and that continues in the craft breweries of today. Tom Acitelli's *Pilsner: How the Beer of Kings Changed the World* tells that story. Pilsner shatters myths about pilsner's very birth and about its immediate parentage. Acitelli, author of the craft beer history *The Audacity of Hops* and the James Beard finalist *American Wine*, also pops the top on new insights into the pilsner style and into beer in general through a character-driven narrative that shows how pilsner influenced everything from modern-day advertising and marketing to today's craft beer movement. *Alaska Mountain Man Recipes and Stories* is a 40-year Alaskan's favorite time-tested drink and food

recipes mixed in with his personal stories about cooking, fun, and brewing. There are plenty of good fishing and hunting tales mixed in for a taste of the outdoor life from Cook Inlet's Alexander Creek to the Yukon River. This book gives the true feel of a life of adventure and Interior Alaska cuisine ranging from the poor man's lobster, burbot, to preparing a bear luau in Central, Alaska. If you like food, fishing and maybe a little homebrew; you'll enjoy these tales told by one long-time Alaskan who had fun in the process. -- from back cover.

Whether you've just started wondering what life is like beyond the ice-cold six-pack or have already discovered your favorite Porter or IPA, The Naked Pint will help you unearth the power that comes with knowing your ales from your lagers. **DIVTaste the history: brew your own vintage beers, from porters to ales to table beer.**

A complete guide to using the

best ingredients and minimal equipment to create fun and flavorful brews Ancient societies brewed flavorful and healing meads, ales, and wines for millennia using only intuition, storytelling, and knowledge passed down through generations—no fancy, expensive equipment or degrees in chemistry needed. In *Make Mead Like a Viking*, homesteader, fermentation enthusiast, and self-described “Appalachian Yeti Viking” Jereme Zimmerman summons the bryggjemann of the ancient Norse to demonstrate how homebrewing mead—arguably the world’s oldest fermented alcoholic beverage—can be not only uncomplicated but fun. Armed with wild-yeast-bearing totem sticks, readers will learn techniques for brewing sweet, semi-sweet, and dry meads, melomels (fruit meads), metheglins (spiced meads), Ethiopian t’ej, flower and herbal meads, braggots, honey beers, country wines, and even Viking grog, opening the Mead Hall doors to further experimentation in fermentation and flavor. In addition, aspiring Vikings will explore:

- The importance of local and unpasteurized honey for both flavor and health benefits;
- Why modern homebrewing practices, materials, and chemicals work but aren’t necessary;
- How to grow and harvest herbs and collect wild botanicals for use in healing, nutritious, and magical meads, beers, and

wines; • Hops' recent monopoly as a primary brewing ingredient and how to use botanicals other than hops for flavoring and preserving mead, ancient ales, and gruits; • The rituals, mysticism, and communion with nature that were integral components of ancient brewing and can be for modern homebrewers, as well; • Recommendations for starting a mead circle to share your wild meads with other brewers as part of the growing mead-movement subculture; and more! Whether you've been intimidated by modern homebrewing's cost or seeming complexity in the past—and its focus on the use of unnatural chemicals—or are boldly looking to expand your current brewing and fermentation practices, Zimmerman's welcoming style and spirit will usher you into exciting new territory. Grounded in history and mythology, but—like Odin's ever-seeking eye—focusing continually on the future of self-sufficient food culture, *Make Mead Like a Viking* is a practical and entertaining guide for the ages. Presents an updated, beginner-friendly guide with the best homebrew techniques, tips, and new recipes. Raise a glass to vintage beer! Treat yourself to a tour through time with this historical collection of beer recipes from 1800 to 1950. Within these pages, you'll discover timeless recipes, along with drink profiles, and tales of how these tasty brews became

a part of the evolution of beer. Each chapter delves into a different style of beer: porter, stout, pale ale, mild ale, stock ale, burton ale, scotch ale, brown ale, dinner ale, light ale, table beer, and more, and explores the history of each style with recipes representative of different periods in time. Whether you choose to adapt the recipes to suit your palette or recreate them, you'll bring history to life with each brew you make. Learn how beer has evolved over the last two hundred years and how you can easily recreate authentic recipes right in your own home. Good recipes and good stories have a way of creating themselves. Inside these pages you will find hearty west coast recipes and stories lived by the fishing families and folks from the coast of British Columbia. From the tranquility and beauty of quiet inner harbours, to the harsh seas and winds of inlets and open waters, the abundance of seafood available to the world awaits to be caught and cooked. Find some of our coastal favorite recipes for cooking salmon, halibut, cod, prawns and clams. Read about how these different species are caught, and come away with hearts and bellies warmed by the great people and resource of British Columbia, Canada. What do you get when you cross a journalist and a banker? A brewery, of course. "A great city should have great beer. New York finally

has, thanks to Brooklyn. Steve Hindy and Tom Potter provided it. Beer School explains how they did it: their mistakes as well as their triumphs. Steve writes with a journalist's skepticism-as though he has forgotten that he is reporting on himself. Tom is even less forgiving-he's a banker, after all. The inside story reads at times like a cautionary tale, but it is an account of a great and welcome achievement."

—Michael Jackson, *The Beer Hunter(r)* "An accessible and insightful case study with terrific insight for aspiring entrepreneurs. And if that's not enough, it is all about beer!" —Professor Murray Low, Executive Director, Lang Center for Entrepreneurship, Columbia Business School "Great lessons on what every first-time entrepreneur will experience. Being down the block from the Brooklyn Brewery, I had firsthand witness to their positive impact on our community. I give Steve and Tom's book an A++!" —Norm Brodsky, Senior Contributing Editor, *Inc.* magazine "Beer School is a useful and entertaining book. In essence, this is the story of starting a beer business from scratch in New York City. The product is one readers can relate to, and the market is as tough as they get. What a fun challenge! The book can help not only those entrepreneurs who are starting a business but also those trying to grow one once it is established. Steve

and Tom write with enthusiasm and insight about building their business. It is clear that they learned a lot along the way. Readers can learn from these lessons too." —Michael Preston, Adjunct Professor, Lang Center for Entrepreneurship, Columbia Business School, and coauthor, *The Road to Success: How to Manage Growth* "Although we (thankfully!) never had to deal with the Mob, being held up at gunpoint, or having our beer and equipment ripped off, we definitely identified with the challenges faced in those early days of cobbling a brewery together. The revealing story Steve and Tom tell about two partners entering a business out of passion, in an industry they knew little about, being seriously undercapitalized, with an overly naive business plan, and their ultimate success, is an inspiring tale." —Ken Grossman, founder, Sierra Nevada Brewing Co. Goose Island opened as a family-owned Chicago brewpub in the late 1980s, and it soon became one of the most inventive breweries in the world. In the golden age of light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. With distribution in two dozen states, two brewpubs and status as one of the 20 biggest breweries in the United States, Goose Island became an American success story and was a champion of craft beer.

Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned. Josh Noel broke the news of the sale in the Chicago Tribune, and he covered the resulting backlash from Chicagoans and beer fanatics across the country as the discussion escalated into an intellectual craft beer war. Anheuser-Busch has since bought nine other craft breweries, and from among the outcry rises a question that Noel addresses through personal anecdotes from industry leaders: how should a brewery grow?
