Our IRS Enrolled Agent Exam Study Guide, Part 1: Individuals contains all the information you need to know to pass the first part of the IRS Special Enrollment Exam without all the unnecessary information that only complicates the study process. You will simply not find a more efficient way to study and prepare for the exam. This review course is for exams administered from May 1, 2013 through Feb 28, 2014. Book compliments the online question bank and simulated practice exams available at FastForwardAcademy.com Registered Options Principal Qualification Examination The Registered Options Principal Qualification Examination (Series 4) is designed to test a candidate's knowledge of the rules and statutory provisions applicable to the supervisory management of a firm's options personnel and options accounts. After passing the Series 4 exam, a registered person may supervise a FINRA member firm's option business and is qualified to oversee trades on the following instruments: Equity options; foreign currency options; interest rate options; index options; options on government and mortgage-backed securities. Each book is accompanied by an online test bank with 68 questions organized by chapter. The questions included in the book have been included in this online test bank. Topics Covered: Options Investment Strategies Supervision of Sales Activities and Trading Practices Supervision of Employees, Business Conduct, and Recordkeeping and Reporting Requirements Test: 125 multiple choice questions; 3 hours testing time. A candidate must answer 70% of the questions correctly to pass the Series 4 exam. Pre-requisites: The Series 7, 17, 37, 38, 42 or 62 can be used to meet the prerequisite of the Series 4 exam. All candidates must be sponsored by a FINRA member firm to take the series 4 exam. A quick reference guide for the PMP Exam, this sturdy, laminated card accompanies The PMP Exam: How To Pass On Your First Try, 6th Edition. Presenting all 49 processes along with the key inputs, tools, and outputs, this helpful tool also depicts techniques, tables, and graphs to highlight the most important information at a glance. Common formulas are

organized for rapid look-up, bringing relevant information for the PMP Exam together in one resource. 2013 Tax Prep Course This course contains topics such as Filing Status, Income, Interest and Dividends, Retirement Income, Depreciation and Schedules C, D, E, and F and much more! Winner of CLR James Book Prize from the Working Class Studies Association and 2nd Place for the Victor Turner Prize in Ethnographic Writing. In 1980, Christine J. Walley's world was turned upside down when the steel mill in Southeast Chicago where her father worked abruptly closed. In the ensuing years, ninety thousand other area residents would also lose their jobs in the mills—just one example of the vast scale of deindustrialization occurring across the United States. The disruption of this event propelled Walley into a career as a cultural anthropologist, and now, in *Exit Zero*, she brings her anthropological perspective home, examining the fate of her family and that of blue-collar America at large. Interweaving personal narratives and family photos with a nuanced assessment of the social impacts of deindustrialization, *Exit Zero* is one part memoir and one part ethnography— providing a much-needed female and familial perspective on cultures of labor and their decline. Through vivid accounts of her family's struggles and her own upward mobility, Walley reveals the social landscapes of America's industrial fallout, navigating complex tensions among class, labor, economy, and environment. Unsatisfied with the notion that her family's turmoil was inevitable in the ever-forward progress of the United States, she provides a fresh and important counternarrative that gives a new voice to the many Americans whose distress resulting from deindustrialization has too often been ignored. This book is part of a project that also includes a documentary film. Now in its 8th edition, *MATHEMATICS FOR PLUMBERS AND PIPEFITTERS* delivers the essential math skills necessary in the plumbing and pipefitting professions. Starting with a thorough math review to ensure a solid foundation, the book progresses into specific on-the-job applications, such as pipe length calculations, sheet metal work, and the builder's level. Broad-based subjects like physics, volume, pressures, and capacities round out your knowledge, while a new chapter on the business of plumbing invites you to consider an exciting entrepreneurial venture. Written by a Master Plumber and experienced vocational educator, *MATHEMATICS FOR PLUMBERS AND PIPEFITTERS*, 8th Edition includes a multitude of real-world examples, reference tables, and formulas to help you build a rewarding career in the plumbing and pipefitting trade. A leading cognitive scientist argues that a deep sense of good and evil is bred in the bone. From John Locke to Sigmund Freud, philosophers and psychologists have long believed that we begin life as blank moral slates. Many of us take for granted that babies are born selfish and that it is the role of society—and especially parents—to transform them from little sociopaths into civilized beings. In *Just Babies*, Paul Bloom argues that humans are in fact hardwired with a sense of morality. Drawing on groundbreaking research at Yale, Bloom demonstrates that, even before they can speak or walk, babies judge the goodness and badness of others' actions; feel empathy and compassion; act to soothe those in

distress; and have a rudimentary sense of justice. Still, this innate morality is limited, sometimes tragically. We are naturally hostile to strangers, prone to parochialism and bigotry. Bringing together insights from psychology, behavioral economics, evolutionary biology, and philosophy, Bloom explores how we have come to surpass these limitations. Along the way, he examines the morality of chimpanzees, violent psychopaths, religious extremists, and Ivy League professors, and explores our often puzzling moral feelings about sex, politics, religion, and race. In his analysis of the morality of children and adults, Bloom rejects the fashionable view that our moral decisions are driven mainly by gut feelings and unconscious biases. Just as reason has driven our great scientific discoveries, he argues, it is reason and deliberation that makes possible our moral discoveries, such as the wrongness of slavery. Ultimately, it is through our imagination, our compassion, and our uniquely human capacity for rational thought that we can transcend the primitive sense of morality we were born with, becoming more than just babies. Paul Bloom has a gift for bringing abstract ideas to life, moving seamlessly from Darwin, Herodotus, and Adam Smith to *The Princess Bride*, Hannibal Lecter, and Louis C.K. Vivid, witty, and intellectually probing, *Just Babies* offers a radical new perspective on our moral lives. Your text simplified as the essential facts to prepare you for your exams. Over 2,000 highly probable test items. This ILT Series course builds on the skills and concepts taught in Access 2013: Basic and Access 2013: Intermediate. This course will help students prepare for the Microsoft Office Specialist exam for Access 2013 (exam 77-424).
