Golosa Oct 03 2021 ГОЛЛОСА:

A Basic Course in Russian
(Sixth Edition), strikes a true
balance between
communication and structure.
It takes a contemporary
approach to language learning
by focusing on the development
of functional competence in the
four skills (listening, speaking,
reading, and writing), as well
as the expansion of cultural
knowledge. It also provides
comprehensive explanations of
Russian grammar along with
the structural practice students
need to build accuracy. The
sixth edition of this bestselling
communicatively based text for
beginning Russian has been
updated by putting a greater
focus on contemporary culture
and simplified, visual grammar

explanations that will better
engage students. Books One
and Two are a basic
proficiency-oriented complete
course in Russian language
designed to bring students to
the ACTFL Intermediate range
in speaking (A2/B1 on the
CEFR scale) after 200-250
classroom contact hours, or
two years of academic study.
The program also covers the
basic morphology of Russian
(declension, case government,
conjugation). The program has
been the bestseller as a college
Russian textbook through five
editions since 1993. It is
designed to be the principal
textbook for a two-year college
sequence running at 3 to 5
hours a week — a total of 150

to 250 hours of face-to-face instruction at the college level, double at the high school level. GOJOCA is divided into two books (Book One and Book Two) of ten units each. The units are organized thematically, and each unit contains dialogs, texts, exercises, and other material designed to enable students to read, speak, and write about the topic, as well as to understand simple conversations. The systematic grammar explanations and exercises enable students to develop a conceptual understanding and partial control of all basic Russian structures. This strong structural base enables

students to accomplish the linguistic tasks and prepares them for further study of the language. Free audio and video resources are also available at www.routledge.com/9780367612801 including the Instructor Resources. Print and eTextbooks are accompanied by a Student Workbook and a rich companion website (www.routledge.com/cw/golosa) offering audio and video material and fully integrated exercises to use alongside the text. The Science of Breakable Things Sep 02 2021 Natalie's uplifting story of using the scientific process to "save" her mother from depression is what Booklist calls "a winning story full of heart and action." Eggs are breakable. Hope is not.

When Natalie's science teacher suggests that she enter an egg drop competition, Natalie thinks that this might be the perfect solution to all of her problems. There's prize money, and if she and her friends wins, then she can fly her botanist mother to see the miraculous Cobalt Blue Orchids--flowers that survive against impossible odds. Natalie's mother has been suffering from depression, and Natalie is sure that the flowers' magic will inspire her mom to love life again. Which means it's time for Natalie's friends to step up and show her that talking about a problem is like taking a plant out of a dark cupboard and giving it light. With their

help, Natalie begins an uplifting journey to discover the science of hope, love, and miracles. A vibrant, loving debut about the coming-of-age moment when kids realize that parents are people, too. Think THE FOURTEENTH GOLDFISH meets THE THING ABOUT JELLYFISH. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR * KIRKUS REVIEWS * THE CHICAGO PUBLIC LIBRARY * "Natalie's Korean heritage is sensitively explored, as is the central issue of depression." --Publishers Weekly "A compassionate glimpse of mental illness accessible to a broad audience." --Kirkus Reviews, STARRED REVIEW "Holy

moly!!! This book made me feel." --Colby Sharp, editor of The Creativity Project, teacher, and cofounder of Nerdy Book Club

Community Language

Interpreting Sep 21 2020

Community Language Interpreting provides translation resource materials for teachers and students. Additionally, for those who plan to work as professional interpreters in Australia, it provides guidelines and intensive practice for interpreting in community settings. The introduction gives an overview of interpreting and outlines how to use the book. Lee and Buzo discuss the different modes of interpreting, note-taking techniques and professional ethics. The ten chapters each deal with a discrete area of community interpreting. Beginning with an introduction, the authors then

establish the social and governmental context to the area in question. This is followed by preparation tasks and useful website links which encourage readers to do more research on the topic to broaden their background knowledge, general knowledge and knowledge of terminology relevant to the field in question. Tasks include questions on the ethical aspects of professional practice. Dialogue interpreting scripts and sight translation texts are provided, followed by consecutive interpreting passages. National Authority for Accreditation of Translators and Interpreters (NAATI) test specifications are followed and

whitestarballoon.org

all dialogue interpreting scripts are original. As well, website links are included for source and full text access to other scripts of interest. Community Language Interpreting also features two units on interpreting in business settings and for visiting delegations. This is because these topics, while not strictly community interpreting topics, are practical and routinely included in accreditation tests.
