The Picture Exchange Communication System Training Manual Nov 25 2020 This book presents an updated description of The Picture Exchange Communication System (PECS). It begins with a discussion of the "big picture," or the authors view on the importance of laying the foundation for communication training by systematically structuring the learning environment (be it in the home, community or school). This approach, The Pyramid Approach to Education, embraces the principals of broad-spectrum applied behavior analysis and emphasizes the development of functional communication skills, independent of communication modality. The Pyramid Approach is one of the few approaches that encourages creativity and innovation on the teacher's part through databased decision making.

The Author Training Manual Feb 21 2023 If you want to write a book that's going to sell to both publishers and readers, you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book, and evaluate it (and yourself) through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing

fiction or non-fiction, or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.

Ninja Skills Sep 04 2021 The world's only illustrated guide to the real ninja teachings of historic Japan with original techniques presented in a highly accessible 'how-to' format The shadowy figure of the ninja—expert commando, secret agent, maverick who operates outside social norms—continues to exert fascination in the West, yet much of what is presented as ninja fact today is distorted or wrong. Drawing on the scrolls created by historical Japanese ninjas (or shinobi, as they were then known), this book offers the real ninja teachings in 150 easy-to-follow, illustrated lessons designed to draw contemporary students of ninja straight into the world of these skilled spy-commandos. The truth about the ninja is so much more complex and intriguing than the Hollywood clichés we know today. We may think, for example, of a ninja as being always garbed in black and fighting with 'throwing stars' but in fact, a ninja had clothes in different colours to serve as disguises for different times of day, and their arsenal of weaponry could include anything from poison, poison gas, pepper spray and fire-creating tools to swords, spears and knives (but no throwing stars). The 150 lessons in this book cover all the basics of ninja warfare, including clever ideas for infiltrating an enemy compound (from wearing 'silent sandals' to faking passes and passwords), tactics for hiding and retreat (in the racoon dog retreat, a ninja will crouch low and halt, allowing the pursuer to collide with him at speed, whereupon the agent kills his enemy), and ways of crossing marshes and water (for example, with special shoes made of boards, or using a foldaway floating seat). The description is made all the more vivid by step-by-step photographs of the fighting techniques, diagrams outlining military tactics and beautiful samples of Japanese calligraphy.
