Malory Price’s life plan has hit a snag. She’s in danger of losing her job managing an art gallery in Pleasant Valley, Pennsylvania. A welcome distraction comes in the form of an invitation to a cocktail party at Warrior’s Peak, an infamous estate overlooking the town. But no one else she knows has been invited... There are only two other guests: Dana Steele, a librarian, and Zoe McCourt, a single mother. On the surface, it seems the women have nothing in common, until their mysterious hosts tell them a story—and offer them a challenge. Legend has it that the souls of three demigoddesses—one an artist, one a bard, and one a warrior—have been locked in a box that has three keys. Now it’s up to Malory and the others to find the keys. Their reward: a million dollars each. It all seems too bizarre to be true. But none of them can ignore the financial windfall they stand to gain. And now Malory—with her soul of an artist and eye for beauty—must find her key first. She soon discovers that whatever locked the souls away is dark, powerful, and greedy...and it doesn’t want the women to win. The start of the 21st century has seen the world shaken by protests, from the Arab Spring to the Yellow Vests, from the Occupy movement to the social uprisings in Latin America. There are periods in history when large numbers of people have rebelled against the way things are, demanding change, such as in 1848, 1917, and 1968. Today we are living in another time of outrage and discontent, a time that has already produced some of the largest protests in world history. This book analyzes almost three thousand protests that occurred between 2006 and 2020 in 101 countries covering over 93 per cent of the world population. The study focuses on the major demands driving world protests, such as those for real democracy, jobs, public services, social protection, civil rights, global justice, and those against austerity and corruption. It also analyzes who was demonstrating in each protest; what protest methods they used; who the protestors opposed; what was achieved; whether protests were repressed; and trends such as inequality and the rise of women's and radical right protests. The book concludes that the demands of protestors in most of the protests surveyed are in full accordance with human rights and internationally agreed-upon UN development goals. The book calls for policy-makers to listen and act on these demands. She reveals to Tancred that her very wealthy father has recently passed away, leaving each of his five children a mysterious object that provides one clue to the whereabouts of a large inheritance. Willow enlists Tancred to steal these objects from her siblings and solve the puzzle. A Japanese screen, a painting that plays music, an aquavit bottle, a framed poem, and a model of Frank Lloyd Wright's Fallingwater: Tancred is lured in to this beguiling quest, and even though Willow dies before he can begin, he presses on. As he tracks down the treasure, however, he must enlist the help of Alexander von Wurfel, esteemed copyist, and fend off Willow's heroin dealers, a young albino named "Nigger" Colby and his sidekick, Sigismund "Freud" Luxemburg, a club-footed psychopath, both of whom are eager to get their paws on this supposed pot of gold. And he must mislead Detective Daniel Mandelshtam, his most adored friend.
