OECD Papers Jul 22 2020 A compilation of reports previously issued by the OECD.

Territorial Cohesion and the European Model of Society Feb 26 2021 In this second book in a series on European spatial planning, the authors examine territorial cohesion as a successor concept to the European Spatial Development Perspective. Fundamental ideas about Europe and its distinct "model of society" lie behind the concept of territorial cohesion, which can be understood as a goal of spatial equity that tends to favor development-in-place over selective migration to locations of greater opportunity. This approach contrasts with an American social model that views the equity principle behind territorial cohesion to be diametrically opposed to the efficiency principle based on free mobility of labor.

[Importance of the traditional land-use and land-tenure systems of Waraka, Seram Island, Maluku](#) Oct 13 2019 In Indonesia, natural resources are under pressure from both urban development and commercial exploitation. In Seram Island, Maluku, oil palm plantations are expanding in the north. In the south of the island, a State-owned cocoa company and a private logging enterprise are exploiting the vast territory of Waraka, an ancestral village established on the coast. The set of customary laws and principles of this village, locally called adat, is still powerful and is the basis of the traditional land tenure and land-use systems. In order to promote the socioeconomical development of his community, the king or raja of Waraka interacts with both companies within a dual and uncertain legal framework. The methodology in this study is based on the institutional framework analysis developed by Ostrom (1994) and a preliminary literature review. It also encompasses qualitative interviews. The evolution of the land tenure and land-use systems of Waraka is related to the strength of adat's recognition and the ability of the raja to conduct deals with both companies. The study finally discusses the possibilities for all stakeholders to manage the land in a more sustainable way through the implementation of a tree-nursery program funded by credit carbons or the use of reduced impact logging practices.

Robotic Systems: Concepts, Methodologies, Tools, and Applications Apr 30 2021 Through expanded intelligence, the use of robotics has fundamentally transformed a variety of fields, including manufacturing, aerospace, medicine, social services, and agriculture. Continued research on robotic design is critical to solving various dynamic obstacles individuals, enterprises, and humanity at large face on a daily basis. *Robotic Systems: Concepts, Methodologies, Tools, and Applications* is a vital reference source that delves into the current issues, methodologies, and trends relating to advanced robotic technology in the modern world. Highlighting a range of topics such as mechatronics, cybernetics, and human-computer interaction, this multi-volume book is ideally designed for robotics engineers, mechanical engineers, robotics technicians, operators, software engineers, designers, programmers, industry professionals, researchers, students, academicians, and computer practitioners seeking current research on developing innovative ideas for intelligent and autonomous robotics systems.

Not Working Feb 15 2020 A candid assessment of why the job market is not as healthy as we think. Blanchflower shows how many workers are underemployed or have simply given up trying to find a well-paying job, how wage growth has not returned to prerecession levels despite rosy employment indicators, and how the young and the less skilled are among the worst casualties of underemployment

[CMT Level III 2017](#) Aug 23 2020 Everything you need to pass Level III of the CMT Program *CMT Level III 2017: The Integration of Technical Analysis* fully prepares you to demonstrate competency integrating basic concepts in Level I with practical applications in Level II, by using critical analysis to arrive at well-supported, ethical investing and trading recommendations. Covered topics include: asset relationships, portfolio management, behavioral finance, volatility, and analysis. The Level III exam emphasizes risk management concepts as well as classical methods of technical analysis. This cornerstone guidebook of the Chartered Market Technician® Program will provide every advantage to passing Level III.

[European Union and New Regionalism](#) Nov 18 2022 Stemming from an international and multidisciplinary network of leading specialists, this best-selling text is fully updated with new chapter additions. With the first edition prepared at the end of the last century and the second edition adding inter-regional relations, this new edition focuses on competing models of regional cooperation within a multipolar world and the role of European Union. This new edition offers: - A comparative analysis of regional cooperation and of both US-centred and EU-centred interregionalism. - A fresh exploration of key issues of regionalism versus globalization and the potential for world economic and political governance through regional cooperation, notably in hard times. - A vigorous response to conventional wisdom on the controversial EU international identity - An appendix on regional and interregional organizations. - A key resource for postgraduate or undergraduate study and research of international relations, European integration studies, comparative politics and international political economy. Taking into account both the expanded European Union and regional cooperation in every continent, this multidisciplinary volume comprises contributions from established scholars in the field: A. Gamble, P. Padoan, G. Joffé, G. Therborn, Th. Meyer, R. Higgott, B. Hettne / F. Ponjaert, F. Soederbaum, Ch. Deblock, K. Eliassen / A. Arnottir, S. Keukeleire / I. Petrova, S. Santander and M. Telò (editor).

[The Semantic Web Explained](#) Apr 11 2022 The Semantic Web is a new area of research and development in the field of computer science that aims to make it easier for computers to process the huge amount of information on the web, and indeed other large databases, by enabling them not only to read, but also to understand the information. Based on successful courses taught by the authors, and liberally sprinkled with examples and exercises, this comprehensive textbook describes not only the theoretical issues underlying the Semantic Web, but also algorithms, optimisation ideas and implementation details. The book will therefore be valuable to practitioners as well as students, indeed to anyone who is interested in Internet technology, knowledge engineering or description logics. Supplementary materials available online include the source code of program examples and solutions to selected exercises.

[Corporate Finance and Financial Development](#) Jul 02 2021 This book addresses key issues in corporate finance and explores them from financial development and financial stability perspectives in emerging markets. Emerging economies are susceptible to rapidly changing financial sectors and products as well as financial upheavals. In this light, the growing interdependence of states and capital markets, and the risk of crises have an impact on the financing of firms. The chapters in this book highlight how companies and policies in emerging markets are affected and deal with the current post-crisis world. By combining academic and industry insights, the critical issues in corporate finance, financial development, and the preparedness of emerging markets are explored.

Crashed Mar 18 2020 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S

BOOKS OF THE YEAR A NEW YORK TIMES CRITICS' TOP BOOK "An intelligent explanation of the mechanisms that produced the crisis and the response to it...One of the great strengths of Tooze's book is to demonstrate the deeply intertwined nature of the European and American financial systems."--The New York Times Book Review From the prizewinning economic historian and author of *Shutdown* and *The Deluge*, an eye-opening reinterpretation of the 2008 economic crisis (and its ten-year aftermath) as a global event that directly led to the shockwaves being felt around the world today. We live in a world where dramatic shifts in the domestic and global economy command the headlines, from rollbacks in US banking regulations to tariffs that may ignite international trade wars. But current events have deep roots, and the key to navigating today's roiling policies lies in the events that started it all—the 2008 economic crisis and its aftermath. Despite initial attempts to downplay the crisis as a local incident, what happened on Wall Street beginning in 2008 was, in fact, a dramatic caesura of global significance that spiraled around the world, from the financial markets of the UK and Europe to the factories and dockyards of Asia, the Middle East, and Latin America, forcing a rearrangement of global governance. With a historian's eye for detail, connection, and consequence, Adam Tooze brings the story right up to today's negotiations, actions, and threats—a much-needed perspective on a global catastrophe and its long-term consequences.

EU Leadership in Energy and Environmental Governance Jun 13 2022 This edited collection focuses on the impact of the changing global distribution of power on the EU's energy policy and ability to project its approach to energy-related issues abroad. It maps the EU's changing position on global energy, the impact of various factors on its energy policy, and its relations with Russia, China, the USA and Brazil.

Linguistic Ethnography Nov 25 2020 The collection demonstrates the ways in which established traditions and scholars have come together under the umbrella of linguistic ethnography to explore important questions about how language and communication are used in a range of settings and contexts, and with what effect.

Pulp and Paper Industry Jul 14 2022 *Pulp and Paper Industry: Microbiological Issues in Papermaking* features in-depth and thorough coverage of microbiological issues in papermaking and their consequences and the current state of the different alternatives for prevention, treatment and control of biofilm/slime considering the impact of the actual technological changes in papermaking on the control programmes. The microbial issues in paper mill systems, chemistry of deposits on paper machines, the strategies for deposit control and methods used for the analysis of biofouling are all dealt in this book along with various growth prevention methods. The traditional use of biocides is discussed taken into account the new environmental regulations regarding their use. Finally, discusses the trends regarding the future of the microbiological control in papermaking systems. In-depth coverage of microbiological issues in papermaking and their consequences Discusses eco-efficient processes (green processes) for biofilm/slime control Offers a thorough review of the current literature with links to the primary literature Comprehensive indexing Author is an authority in the pulp and paper industry

Sessional Papers Dec 19 2022

Roll Over, Tchaikovsky! Oct 17 2022 Centered on the musical experiences of homosexual men in St. Petersburg and Moscow, this ground-breaking study examines how post-Soviet popular music both informs and plays off of a corporeal understanding of Russian male homosexuality. Drawing upon ethnography, musical analysis, and phenomenological theory, Stephen Amico offers an expert technical analysis of Russian rock, pop, and estrada music, dovetailing into an illuminating discussion of homosexual men's physical and bodily perceptions of music. He also outlines how popular music performers use song lyrics, drag, physical movements, images of women, sexualized male bodies, and other tools and tropes to implicitly or explicitly express sexual orientation through performance. Finally, Amico uncovers how such performances help homosexual Russian men to create their own social spaces and selves, in meaningful relation to others with whom they share a "nontraditional orientation."

Southernizing Sociolinguistics May 20 2020 This innovative collection offers a pan-Southern rejoinder to hegemonies of Northern sociolinguistics. It showcases voices from the Global South that substitute alternative and complementary narrations of the link between language and society for canonical renditions of the field. Drawing on Southern epistemologies, the volume critically explores the entangled histories of racial colonialism, capitalism, and patriarchy in perpetuating prejudice in and around language as a means of encouraging the conceptualization of alternative epistemological futures for sociolinguistics. The book features work by both established and emerging scholars, and is organized around four parts: The politics of the constitution of language, and its metalanguage, in the Global South; Who gets published in sociolinguistics? Language in the Global South and the social inscription of difference; and Learning and the quotidian experience of language in the Global South. This book will be of interest to scholars in sociolinguistics, applied linguistics, critical race and ethnic studies, and philosophy of knowledge.

Good Regulation, Bad Regulation Apr 18 2020 Since the 2007 2008 global financial crisis, there has been much debate about the role of financial regulation and the causes of financial instability in the industry. Where studies commonly question the value of a regulated rather than free market, this book focuses on the differentiation of 'good regulation' and 'bad regulation'. This book highlights the need for financial regulation to combat corruption, and the integral link that exists between corruption and financial instability. The author evaluates the benefits and shortcomings of specific types of regulation, drawing on recent examples to illustrate each argument. The book presents compelling arguments for the regulation of leverage, liquidity, payday loans and securitisation; and debates the negative aspects of the regulation of short selling, and high-frequency trading, and of Basel-style banking regulation. The author argues that there is no free-market solution to financial instability, and rejects the idea of 'too big to fail'.

A Collection of Technical Papers Dec 15 2019

UGC NET Paper-1 Study Material for Teaching & Research Aptitude with Higher education System Aug 15 2022

Papers in Translation Studies Feb 09 2022 This book presents cutting-edge research in translation studies, offering stimulating discussions on translation and providing fresh perspectives on the field. *Papers in Translation Studies* features a selection of papers originally authored for this volume, addressing a variety of issues from different points of view and offering interesting contributions to the critical literature of the field. The volume provides useful resources that will be of great benefit for academics, students and practitioners. The contributions to this book promote research on translation theory and practice, and suggest ways of dealing with translation problems. The volume chapters are written by researchers from around the world, and consider various different languages and contexts. Areas of investigation include contrastive linguistics and translation, corpus-based translation studies, natural language processing, machine translation, and translator training.

Water Conservation and Wastewater Treatment in BRICS Nations Jan 28 2021 *Water Conservation and Wastewater Treatment in BRICS Nations: Technologies, Challenges, Strategies, and Policies* addresses issues of water resources—including combined sewer system overflows—assessing effects on water quality standards and protecting surface and sub-surface potable water from the intrusion of saline water due to sea level rise. The book's chapters incorporate both policies and practical aspects and serve as baseline information for future adaption plans in BRICS nations. Users will find detailed important information that is ideal for policymakers, water management specialists, BRICS nation undergraduate or university students, teachers and researchers. Presents tools and techniques that can be used to preserve water resources, including groundwater and surface water Provides geophysical methods to quantitatively monitor physical earth processes associated with water resources, such as contaminant transport and ecological and climate change investigations and monitoring Includes desalination techniques which can solve the issue of scarce drinking water

Security Opportunities in Nano Devices and Emerging Technologies Aug 03 2021 The research community lacks both the capability to explain the effectiveness of existing techniques and the metrics to predict the security properties and vulnerabilities of the next generation of nano-devices and systems. This book provides in-depth viewpoints on security issues and explains how nano devices and their unique properties can address the opportunities and challenges of the security community, manufacturers, system integrators, and end users. This book elevates security as a fundamental design parameter, transforming the way new nano-devices are developed. Part 1 focuses on nano devices and building security primitives. Part 2 focuses on emerging technologies and integrations.

Mali, Poverty Reduction Strategy Paper Annual Progress Report Jan 16 2020

IMF Financial Operations 2016 Sep 23 2020 IMF Financial Operations 2016 provides a broad introduction to how the IMF fulfills its mission through its financial activities. It covers the financial structure and operations of the IMF and also provides background detail of the financial statements for the IMF's activities during the most recent financial year. This publication (currently in its third edition) updates a previous report entitled Financial Organization and Operations of the IMF, first published in 1986 and last issued in 2001 (the sixth edition). That 2001 report reflected the seismic shifts in the global economy and in the IMF's structure and operations that occurred after the fall of the Soviet Union and the various currency and financial crises of the 1990s. This revised and updated report covers more recent developments, including reform of the IMF's income model, measures taken in response to the global financial crisis of 2007–09, and the institutional reforms aimed at ensuring that the IMF's governance structure evolves in line with developments in the global economy.

UPSC CAPF Assistant Commandant Examination 18 Years Solved Paper 2004–2021 Feb 21 2023 The current edition (2022) of this book deals with the "Assistant Commandant examination" (CAPF) which is organized by Union Public Service Commission. This book is consisting of "18 Years of UPSC CAPF Assistant Commandant Paper 1 and 2 Solved Papers. The present book is very useful for each and every aspirant of Armed Forces. The book includes Solved Papers from 2021 to 2004. Detailed explanation to each and every question is provided immediately after the Question Paper.. The book also provides Paper 1 and 2 with detailed solutions, based on the pattern of latest CAPF Papers. Paper 1 consists of 125 MCQs of General Ability and Intelligence. Paper 2 consists of General Studies, Essay Writing and Comprehension. The Solved Papers provides insights on the exam pattern and gives students a complete understanding of exam paper, type and level of questions. The book also provides Trend Analysis of last 18 Years. This book will be of great help in bringing you a step closer to be an officer in Armed forces. 1. 18 Years of UPSC CAPF Assistant Commandant Paper 1 and 2 Solved Papers 2. Detailed Explanations (Including Paper 1 and Paper 2) 3. The present book is very useful for each and every aspirant of Armed Forces. 4. The book includes Solved Papers from 2021 to 2004. Detailed explanation to each and every question is provided immediately after the Question Paper

Capital Punishment: New Perspectives Mar 10 2022 This collection asks questions about the received wisdom of the debate about capital punishment. Woven through the book, questions are asked of, and remedies proposed for, a raft of issues identified as having been overlooked in the traditional discourse. It provides a long overdue review of the disparate groups and strategies that lay claim to abolitionism. The authors argue that capital litigators should use their skills challenging the abuses not just of process, but of the conditions in which the condemned await their fate, namely prison conditions, education, leisure, visits, medical services, etc. In the aftermath of successful constitutional challenges it is the beneficiaries (arguably those who are considered successes, having been 'saved' from the death penalty and now serving living death penalties of one sort or another) who are suffering the cruel and inhumane alternative. Part I of the book offers a selection of diverse, nuanced examinations of death penalty phenomena, scrutinizing complexities frequently omitted from the narrative of academics and activists. It offers a challenging and comprehensive analysis of issues critical to the abolition debate. Part II offers examinations of countries usually absent from academic analysis to provide an understanding of the status of the debate locally, with opportunities for wider application.

The Demographic Transformations of Citizenship Nov 06 2021 The Demographic Transformations of Citizenship examines how attempts by contemporary states to govern demographic anxieties are shaping ideas about citizenship both as a boundary-maintaining mechanism and as an ideal of equal membership. These anxieties, while most often centred upon immigration, also stem from other demographic changes unfolding in contemporary states - most notably, the long-standing trend towards lower birth rates and consequent population ageing. With attention to such topics as control over borders, national identity, gender roles, family life and changing stages of life, Askola examines the impact of demographic changes, including but not limited to immigration. Drawing from a variety of disciplines, including law, demography, and sociology, this book discusses how efforts to manage demographic anxieties are profoundly altering ideas about citizenship and belonging.
