book. Yes, it is a quick summary of the same thing. But I pinpoint what you need to pay attention to, because these will most likely be on the real exam. Step 3: Make sure you do the practice questions. Step 4: Check answer key and explanations. Each answer key also refers to the specific sections of your new PMBOK by page number. Step 5: Now repeat the steps 1-5 for every chapter. Ensure you have a big-picture view about the materials in each chapter. Also review the PM process map on P61 of your new PMBOK whenever you are done with a chapter. Step 6: When you finish all chapters, you would have a good view of all 10 knowledge areas. Now memorize the PM process map on P61 of your new PMBOKLet's review: the above steps should take you no more than 4 days even if you have only 2 hours each day. For some people it's possible to finish the materials during a weekend cram or study non-stop for a whole day ( no more than  $8 \times 2 = 16$  hours) Step 7: Now start mock exams. At the end of this book it

provides Internet links to at least 4 online mock exams. Review the PM process map every time before you do the mock exam. How many exams you want to do is totally up to you. Always spend at least one hour to review each mock exam against new PMBOK. Step 8: Take a break (maybe one day or sleep one hour if you haven't done so for the past 24 hours) before the exam if necessary. Then you are ready!"
