The Record of Connecticut Men in the Military and Naval Service During the War of the Revolution, 1775-1783 May 20 2020 This is the standard work on the subject, and it is literally crammed with genealogies of the 17th-century pioneers of the county, most of whom were of Dutch, or, to a lesser extent, British, origin.

**The Four Voyages of Christopher Columbus** Feb 21 2023 No gamble in history has been more momentous than the landfall of Columbus's ship the Santa Maria in the Americas in 1492 - an event that paved the way for the conquest of a 'New World'. The accounts collected here provide a vivid narrative of his voyages throughout the Caribbean and finally to the mainland of Central America, although he still believed he had reached Asia. Columbus himself is revealed as a fascinating and contradictory figure, fluctuating from awed enthusiasm to paranoia and eccentric geographical speculation. Prey to petty quarrels with his officers, his pious desire to bring Christian civilization to 'savages' matched by his rapacity for gold, Columbus was nonetheless an explorer and seaman of staggering vision and achievement.

*The Catalogue of Shipwrecked Books* Dec 07 2021 This impeccably researched and “adventure-packed” (The Washington Post) account of the obsessive quest by Christopher Columbus’s son to create the greatest library in the world is “the stuff of Hollywood blockbusters” (NPR) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus’s death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father’s campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include “all books, in all languages and on all subjects,” even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the

final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. “Magnificent...a thrill on almost every page” (The New York Times Book Review), *The Catalogue of Shipwrecked Books* is a window into sixteenth-century Europe’s information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.
