The Routledge Companion to Accounting History Mar 19 2020 The Routledge Companion to Accounting History presents a single-volume synthesis of research in this expanding field, exploring and analysing accounting from ancient civilizations to the modern day. No longer perceived as the narrow study of how a mysterious technique was used in past, the scope of accounting history has widened substantially. This revised and updated volume moves beyond the history of accounting technologies, accounting theories and practices and the accountants who applied them. Expert contributors from around the world explore the interfaces between accounting and the economy, society, culture and the polity. Accounting history is shown to offer important insights into such disparate phenomena as the evolution of capitalism, control of labour, gender and family relationships, racial exploitation, the operation of religious organisations, and the functioning of the state. Illuminating the foundation and development of accounting systems, this updated, classic book opens the field to a new generation of accounting scholars and historians around the world.

Accounting and Financial System Reform in Eastern Europe and Asia Dec 16 2019 Much has been written about the economic and political problems of countries that are in the process of changing from centrally planned systems to market systems. Most studies have focused on the economic, legal, political and sociological problems these economies have had to face during the transition period. However, not much has been written about the dramatic changes that have to be made to the accounting and financial system of a transition economy. This book was written to help fill that gap. This book is the second in a series to examine accounting and financial system reform in transition economies. The first book used Russia as a case study. The present volume in the series examines some additional aspects of the reform in Russia and also looks at the accounting and financial system reform efforts that are being made in Ukraine, Bosnia & Herzegovina, Armenia and five Central Asian republics.

Accounting Reform in Transition and Developing Economies Jan 17 2020 The editor has assembled a stellar group of experts to address such topics as: accounting reform in Russia, Ukraine, Estonia, Armenia, Serbia, China, and Spain; accounting education and development of the accounting profession in several transition economies; and corporate governance issues in the developing world.
